Marathi

Education

Diploma in Computer Tech.
Shivaji Polytechnic,
2019-2021

Front-end Development

HTML, CSS, JS proficiency
React or Vue familiarity

Back-end Development

Node.js expertise
RESTful API design
Express.js framework
NoSQL Database interaction

Database Management

MongoDB or Redis knowledge
Schema Design

Version Control/Git

Git proficiency
Branching and merging skills

Development Tools

Visual Studio Code (IDE)
Command line proficiency

Other Skills

Problem-solving
CI/CD pipeline familiarity
Debugging techniques

CAREER PROFILE

Full Stack Developer with 1.5 years experience in Node.js, Nuxt.js, and Express.js. Adept at building scalable web applications with a focus on optimizing RESTful APIs and server-side rendering (SSR) using Nuxt.js and Vue.js. Skilled in database management with MongoDB, ensuring seamless collaboration with UI/UX designers to produce visually stunning and user-centric interfaces. Proficient in implementing secure authentication protocols using JWT and Firebase Authentication, alongside dynamic image handling via AWS S3. Demonstrated expertise in e-commerce applications, multi-tenant architectures, payment gateway integrations, and real-time communication solutions. Combines technical prowess with a strong design sense to deliver solutions that emphasize user experience and security. Continually adapts and learns the latest technologies.

EXPERIENCE

Jr. Software Developer

IRYS (India) R&D Private Limited

Feb 2022 - Present (1 year 6 months)

- Led a team in developing scalable web applications, leveraging technologies like Node.js, Nuxt.js, and Express.js.
- Pioneered the implementation of SSR and CSR using Nuxt.js and Vue.js, achieving improved loading performance and enhancing SEO reach.
- Managed MongoDB operations, facilitating efficient data storage and retrieval, ensuring robust backend support for our scalable applications.
- Acted as the bridge between UI/UX designers and front-end developers, ensuring seamless and aesthetic integration of designs into the development workflow.
- Orchestrated secure authentication and authorization frameworks utilizing JWT and Firebase, strengthening application security.
- Expertly managed AWS S3, overseeing dynamic image uploading and systematic cloud storage.
- Spearheaded the development of Inventory Management Systems, ensuring timely product tracking and efficient stock management.
- Integrated diverse payment gateways like Razorpay, Stripe, Instamojo, and Urway, offering multiple transaction options to users.
- Innovated the E-Commerce landscape by launching a cutting-edge application supporting multi-language and RTL, reaching a wider user base.
- Implemented multi-tenant architecture, providing unified data management across diverse client databases.
- Prioritized user data protection by introducing a secure Firebase authentication mechanism.
- Conceptualized and developed a virtual try-on application, leading to enriched user interactions and diminishing product return rates.
- Championed the creation of Single Page Applications, delivering an uninterrupted and dynamic user experience.
- Enhanced overall system efficacy by initiating task automation systems and performance optimization tools, including BullMQ and a Redis-based queue system.
- Pioneered real-time communication using Socket.io, fostering instant updates and collaborations.
- Oversaw bulk image management in AWS S3, streamlining file storage and access processes.
- Introduced dynamic CSS export capabilities through HTTP requests, adapting styling based on real-time data conditions.

Technologies Used: Node Js, Nuxt Js, Vuex & Pinia, Vuetify js, Tailwind CSS, Express js, Typescript, Socket IO

PROJECTS

Amolite Fincorp

- **Static Website with a Dynamic Touch:** "Amolite Fincorp" is a static website that defies convention. Through my skills in JavaScript and jQuery, I have integrated interactive elements and smooth animations, giving the website a dynamic and engaging feel.
- **Responsive Design:** Emphasizing my proficiency in Bootstrap, the website seamlessly adapts to various devices and screen sizes. Whether viewed on a desktop, tablet, or smartphone, "Amolite Fincorp" provides a consistent and optimized user experience.
- **Visual Appeal with Owl Carousel:** The incorporation of the Owl Carousel CDN has elevated the website's visual appeal. Captivating carousels dynamically display financial data and trends, showcasing my ability to integrate external resources effectively.
- **Intuitive User Experience:** Through meticulous HTML and CSS coding, I have created a user-friendly interface for "Amolite Fincorp." Navigating through the website is smooth and intuitive, offering visitors a seamless experience.
- **Finance-Oriented Platform:** "Amolite Fincorp" serves as a finance app, offering a range of financial tools and resources. The website exemplifies my ability to develop functional and purpose-driven projects tailored to specific industries.
